## PROFESSIONAL SUMMARY

Computer Science and Informatics graduate with strong foundation in software engineering and specialized security operations training. Demonstrated success in collaborative project environments with excellent team coordination skills. Continuously expanding technical knowledge through hands-on projects and industry certifications. Proven ability to work effectively in team settings while maintaining commitment to continuous learning and professional growth in software development and cybersecurity.

---

## EDUCATION

### Bachelor of Science in Computer Science and Informatics

University of Johannesburg, Johannesburg, Gauteng

Graduation Ceremony: 2026

**Relevant Coursework:** Data Structures & Algorithms, Software Engineering, Object-Oriented Programming (OOP), Database Management Systems, Web Development, Computer Networks, Operating Systems, Information Security

### National Senior Certificate

Amaria Combined School, Limpopo

2018

---

## TECHNICAL SKILLS

- **Programming Languages:** Java, C++, C#, TypeScript, JavaScript, Python, SQL, Assembly
- **Frameworks & Libraries:** React, Node.js, Express.js
- **Tools & Platforms:** Git, GitHub, MySQL, Prisma ORM, Kali Linux, Wireshark, Nmap, Metasploit, Google Chronicle

- **Concepts & Methodologies:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Agile Methodologies, RESTful APIs, Threat Intelligence, Incident Response, SIEM Fundamentals, Risk Assessment & Mitigation
- 

## **CERTIFICATIONS**

- Google Security Operations - Deep Dive | November 2025
  - Google Security Operations - Fundamentals | November 2025
  - Datacom Security Operations Simulation | November 2025
- 

## **PROJECTS & PRACTICAL EXPERIENCE**

### **BenchmarkTrader: Full-Stack Trading Platform**

February 2025 - October 2025

- Collaborated in team environment to engineer comprehensive trading platform using TERN stack with Prisma ORM and Supabase integration
- Coordinated with peer developers to implement broker-client matching system and automated trade execution workflow
- Actively participated in code reviews and knowledge sharing sessions to enhance team productivity and code quality

### **WildGraph: Wildlife Protection System**

March 2025 - May 2025

- Worked collaboratively to develop Java application utilizing graph theory and pathfinding algorithms for conservation efforts
- Engaged in team problem-solving sessions to design algorithms identifying critical protection corridors
- Contributed to group discussions on system architecture and implementation strategies for terrain mapping

### **Cybersecurity Foundations & Security Operations**

November 2025

- Completed Google Cloud security operations curriculum with focus on Chronicle platform for threat detection and investigation
- Applied security tools including Wireshark and Nmap in practical lab environments for network analysis

- Developed understanding of security operations through guided offensive and defensive security exercises

### **Datacom Cybersecurity Job Simulation**

November 2025

- Conducted ransomware attack investigation following incident response protocols
  - Prepared comprehensive incident documentation detailing attack lifecycle and business impact
  - Performed risk assessment identifying critical vulnerabilities and mitigation strategies
- 

### **PROFESSIONAL ATTRIBUTES**

- **Team Collaboration:** Proven ability to work effectively in development teams with strong communication and coordination skills
  - **Continuous Learning:** Demonstrated commitment to expanding technical knowledge through certifications and practical application
  - **Adaptive Problem-Solving:** Ability to quickly learn new technologies and methodologies to address evolving project requirements
  - **Knowledge Sharing:** Active participant in team learning environments and code review processes
- 

### **ADDITIONAL INFORMATION**

- **Languages:** English (Fluent), Venda (Native)
- **Interests:** Cybersecurity Fundamentals & Threat Intelligence, Software System Design, Tech Innovation
- **Clear Criminal Record:** Available on Request
- **References:** Available on Request
